LED STATES

Steady GREEN – Normal Operating Condition

Flashing YELLOW – Warning/Minor Fault

Flashing RED – Abnormal Operating Condition/Major Fault

OFF – Normal Power OFF

Optional Remote Monitoring via Wi-Fi

In addition to local monitoring data, remote monitoring via Wi-Fi allows for 24/7 access to insights of all devices, such as:

- Enclosure temperature
- Enclosure humidity
- Liquid accumulation
- Line- and load-side voltage values
- Ground continuity
- Support materials

The Inform app offers real-time notifications of abnormal conditions so you can respond faster to potential problems and minimize the duration of downtime events.
